Legal Positivism

So demonstration quia must precede demonstration propter quid. On this view, all law is settled law and questions of settled law can be resolved without recourse to moral arguments: The law on a question is settled when legally binding sources provide its solution. In that sense, any substantial form whatsoever will be immaterial, including the substantial form of an oak tree or the substantial form of a dog.

W. G., New Encyclopedia of Philosophy

He was in his primary and official profession a theologian.

Saint Thomas Aquinas (Stanford Encyclopedia of Philosophy)

That order of learning is as follows: logic, mathematics, natural philosophy, moral philosophy, metaphysics. Still, the soul can be called substance by analogy, insofar as it is the formal principle of a substance. This criticizing movement inaugurated in was taken up in , where it combined with an outright of.

Legal Positivism

The sensing subject is the animal, but the proximate subjects to which they are attributed are the powers of sight, touch, hearing, and the like. We come upon our first secure knowledge of a god in the proof of the Prime Mover. For instead of threatening an entire assembly, the discovery of a false generalization actually saves the investigator the trouble of having to proceed further in a particular direction or line of inquiry.

Legal Positivism

There must be a matter or subject but it cannot be matter in the sense of a substance. Section editors were given the task of reviewing the earlier entries and deciding which could be retained, with perhaps only bibliographical updates, and which required addenda or completely new material. But this tracing back will pass through very different terrains, depending on the upbringing, culture and other vagaries and accidents of a given person's experience.
