### Keith Beken

## Cunard Line Ocean Liner and Cruise Ship Postcards

He also brought out a range of Beken books, including Beken of Cowes two volumes, 1966-69, The Beken File 1980, an autobiography, A Hundred Years of Sail 1981, A Century of Tall Ships 1985, The America's Cup 1990 and Ocean Liners 1992. Keith Beken had an amazing memory and could recognise yachts from miles away across the Solent by their length and hull colour, their kind of rig, the colour and design of their sails and spinnakers. She was a ship of superlatives: the largest ship in the world for five years, more than 20,000 tons larger than White Star's Majestic; the first liner to exceed 1000 feet in length; the first liner to exceed 60,000 tons and 70,000 and 80,000, for that matter; the largest turbo-electric powered liner; and the first to make a 30 knot eastbound Atlantic crossing.

### Keith Beken

She made two Atlantic crossings after the start of WW2, before being converted into a troopship in Sydney in 1940. Hoffman real photographic postcard of 3rd Class Cabin on Mauretania 2. What a great job to have! Modern Postcards Modern reproduction of the Salmon postcard of Mauretania 2.

Cunard Line Ocean Liner and Cruise Ship Postcards Mauretania of 1939 This page is devoted to postcards and photographs of the Cunard Liner Mauretania 2 of 1939. Built by Chantiers et Ateliers de St. Though a colossus in the yachting world, he was a very private person with a wicked smile and great sense of humour.
