## CMOS Digital Integrated Circuits Analysis & Design: Kang, Sung

He is a co-author of more than 150 scientific articles and 3 textbooks. He has previously worked as a faculty member at University of Illinois at Urbana-Champaign, at Istanbul Technical University, and at Worcester Polytechnic Institute WPI, where he established and directed the VLSI Design Laboratory, and also served as a project director at the New England Center for Analog and Mixed-Signal IC Design. He is widely admired as a stylist; his essays and books are remarkably free of jargon and clutter.
