### 'Mary Queen of Scots' and Margot Robbie: Oscar Contenders After All?

In this respect, the differentiation of Doric depends largely on the presupposition that Scots is likely always to be regarded as the sum of its dialects and never likely to be given a secure place in the educational policies of the nation as a whole - a view which is both contrary to the principle that Scots should be treated according to the same basic principles as Gaelic, and manifestly a self-fulfilling prophecy. The following recommendations are based on such considerations, and they lead to the conclusion that, of all the Anglic varieties spoken traditionally in Scotland, only Shetlandic and Orcadian should be differentiated from Scots, whereas other varieties such as the Doric of the North East are, for purposes of active teaching and literacy, able to be easily incorporated within Scots as a whole in the treatment below, it is assumed that what applies to Shetlandic applies in principle to Orcadian as well.

### Anglic

That is outwith the remit of the report. None of these criteria apply to Doric.
