Her research has investigated household production and consumption strategies in the Early Postclassic regional center of Xaltocan Mexico as well as questions of social identity, gender, and the emergence of social inequality in ancient states.

Sexuality in Ancient Egypt

Drawing on the Egyptian domestic architecture from the New Kingdom and earlier, I argue that architecture remains an essential source for understanding the conceptual structure of domestic space and the nature of social interaction. However, premarital sex was not considered taboo in any way and was often practiced.
