Man Against Nature

The Cambridge Introduction to Narrative. Illustrations, Index, if any, are included in black and white.

Man against nature (1954 edition)

The exploration story deserves the attention and consideration of Star Wars creators.

Man against nature (1954 edition)

Spine creases, wear to binding and pages from reading. Name someone and describe something.

Man against nature (1954 edition)

Many modern takes on the exploration genre continue to be produced, however, and are particularly prominent in video games, with top titles like Uncharted, Tomb Raider, and BioShock fitting into the genre. The days of stories built around uncharted planets and quests for ancient treasures are mostly in the past. If the original book was published in multiple volumes then this reprint is of only one volume, not the whole set.

Man Against Nature: The Tales of Adventure and Exploration

Probably an important book, meant to be kept on the shelf and read from time to time depending on which setting you're in the mood to visit, because these accounts are from just about everywhere. .
