Almost every great monastery about this time had its historian: but some still adhered to the ancient method. Among unofficial sources the most characteristic of the 18th century are letters, memoirs and periodical literature. He acknowledged its many omissions and the difficulty of taming language but was determined that there should be a single correct form of pronunciation.

But, even when all conscious bias is eliminated, the unconscious bias remains, and Ranke's history of the Reformation is essentially a middle-class, even bourgeois, presentment. They are declined as strong adjectives. The Magnum Chronicon is in fact nothing more than an excerpt of the Florarium temporum of Nicolaas Clopper, regular canon in Mariënhege Eindhoven, to which the author has added some information on Neuss over the years 1466-75.

In the first place, history ceases to be the exclusive province of the church; monastic chronicles shrink to a trickle and then dry up; the last of their kind in England is the , which ends in 1554. Some collateral light on is thrown by the and other materials collected in Vigfusson and Powell's , and

for the reign of Canute and his sons there is the contemporary , which is a dishonest panegyric on the widow of Aethelred and Canute. The first chronicles were, perhaps, those of Kent or Wessex; which seem to have been regularly continued, at intervals.
