

Watershed management to meet water quality standards and emerging TMDL - proceedings of the 5-9 March 2005 Atlanta Georgia Conference.

American Society of Agricultural Engineers - CARD

Description: -

-
Water quality -- Measurement -- Congresses.
Water -- Pollution -- Total maximum daily load -- Congresses.
Watershed management -- Congresses. Watershed management to meet water quality standards and emerging TMDL - proceedings of the 5-9 March 2005 Atlanta Georgia Conference.

-Watershed management to meet water quality standards and emerging TMDL - proceedings of the 5-9 March 2005 Atlanta Georgia Conference.

Development and Evaluation of TMDL Planning and Assessment Tools and Processes

Journal of Soil and Water Conservation Society 62 1 :10-21. It also develops low-cost tools for identifying sources of fecal bacteria in surface waters, dramatically reducing the cost of implementing TMDLs. Therefore, it is import to understand the effects of spatial scale at which soil database is developed.
