## Les Climats

Not too many people can say they haven't.

## Climate

As Adam Phillips notes in his book *On Flirtation*, lovers and jealous people are detectives who recklessly seek the little something that will radically differentiate the object of their affection from the rest of the world. El sitio es un ejemplo notable de producción vitivinícola desarrollada desde la Alta Edad Media. Could there be any greater love than that? And none of the women in this book really did anything to contradict that.

## The Climats, terroirs of Burgundy

As I'm sure you will be after reading, *Climats*. But as their love passes from the stage of crystallisation to the routine of conjugal life, the first ordeals appear. On the hills below San Miniato, she showed me narrow roads framed by stifflingly hot walls above which burgeoning wisterias trailed their clusters of flowers.

## Climats (TV Movie 2012)

It is written in two parts, each of which can easily be read in a single evening.

## Climats by André Maurois

Perhaps she should've done more to foster his abuse of her—she could've at least thrown herself at his feet to beg forgiveness for his adultery. In my opinion it's a book about love and jealousy. Isabelle, for instance, whom they have known since she was a child, would have been the perfect match.
