Eisenman Architects/University of Phoenix Stadium for the Arizona Cardinals

The Cardinals never wavered in their support of us, even with the cuts in the roof. Edition Notes Includes bibliographical references p. The roll-out natural grass playing field weighs nearly 20 million pounds and travels a distance of 740 feet in less than an hour.

Eisenman Architects University of Phoenix Stadium for the Arizona Cardinals

State Farm Stadium was the first in the world to have a retractable roof on an angle.

Eisenman Architects University of Phoenix Stadium for the Arizona Cardinals

. He is featured in wide print and many films, including the 30 minute film Peter Eisenman: University of Phoenix Stadium for the Arizona Cardinals where he provides a tour of his recent construction. Spectacular footage, along with Eisenman's explanation of his intentions as he walks through the stadium's spaces, provides a compelling presentation of this singular work of architecture by one of today's leading practitioners.

State Farm Stadium

TG: Given the structural tolerances on that secondary steel, how much play did you have? You see a lot of meanness and orneriness in this new logo and that is how you like to play the game. Get this from a library. The snake is a symbol of life, of its beginning and its end.
