### Well slot: Active wells and completions in Westwood report to month end

These included the preparation and publication of Safety Cases, the strengthening of Safety Management Systems, independent assessment and survey, legislative changes and changing the regulatory body. This fell to 738 in March, before reaching a four-year low of 572 in April, the lowest since May 2016. Training standards and on training delivery both here and around the world are also being advanced through OPITO.

### Electrification of platforms

Often recovery from these fields is achieved by subsea developments tied back to existing installations and infrastructure, over varying distances measured in tens of kilometres. If developments progress as planned, production could increase to 1. Thematic Reports Are you worried about the pace of innovation in your industry? Resources at Cape Vulture are estimated at 20 mnbbbl and 39 bcf by the NPD and if developed, could be tied back to the Equinor operated Norne FPSO, c.

### Exploration drilling activity expected to recover in 2021, says Westwood Global

In 2017, capital investment in the UK offshore oil and gas industry was £5. The oil and gas industry plays a central role in the economy of the United Kingdom.

### Equinor begins UK drilling campaign Equinor begins UK drilling campaign

It is expected that tax revenues from production will fall to £6.

### Offshore Hydrocarbon Wells

The competence of its people and the quality of its technology, particularly subset, are very much in demand in oil and gas provinces around the world. Many new oil and gas fields in the UK are small, technically complex and economically marginal. The Gjøa field was electrified from the

very outset.

### **Statfjord oil field**

New facilities could add another £2-3 billion to the decommissioning cost, raising the total to circa £25 billion.

### **Oil and gas industry in the United Kingdom**

Supporting Government legislation The NGR directly supports the UK Government, its departments and agencies in the implementation of legislation, regulation and codes of practice relating to subsurface data acquired by private operators during groundwater and mineral including oil and gas exploration.

### **Equinor begins UK drilling campaign Equinor begins UK drilling campaign**

The only major onshore field is in Dorset but there are a handful oil wells scattered across England.
