

# Topological nonlinear analysis - degree, singularity, and variations

**Birkhäuser - Topological Nonlinear Analysis**

Description: -

-

English

English (ie as school subject)

Topological algebras.

Nonlinear functional analysis. Topological nonlinear analysis - degree, singularity, and variations

-

v. 15

Progress in nonlinear differential equations and their applications

; Topological nonlinear analysis - degree, singularity, and variations

Notes: Includes bibliographical references.

## Topological bifurcations of central configurations in the N

In this article we study topological bifurcations of classes of central configurations of the spatial 6- and 7-body problems. All data represented as  $\text{mean} \pm s$ .

## Topological Nonlinear Analysis

Publisher: Springer-Verlag New York Inc. The survey articles presented here reflect the personal taste and points of view of the authors all of them well-known and distinguished specialists in their own fields on the subject matter. The extrusion process can be triggered by apoptotic signalling, oncogenic transformation, and overcrowding of cells „.

## Topological defects in epithelia govern cell death and extrusion

Characterization of the interface between normal and transformed epithelial cells. Analysis of discrete ill-posed problems by means of the L-curve.

## Topological Nonlinear Analysis II by Michele Matzeu, Alfonso Vignoli

Inference of internal stress in a cell monolayer. Spontaneous flow states in active nematics: a unified picture.

## Topological bifurcations of central configurations in the N

Apoptotic force and tissue dynamics during *Drosophila* embryogenesis. Emerging modes of collective cell migration induced by geometrical constraints. Action note digitized 2010 HathiTrust Digital Library committed to preserve digitized 2010 HathiTrust Digital Library committed to preserve digitized 2010 HathiTrust Digital Library committed to preserve ISBN 9781461225706 electronic bk.

## Topological defects in epithelia govern cell death and extrusion

The process is still going on and the achievements in this area are spectacular.
