Otter Creek Reservoir Recreation Area

The Parker Mountains are located to the east, Monroe Mountain and Kingston canyon to the west of the lake, and the Sevier Plateau is to the southwest. If you want to get out and try something in addition to fishing, there are a variety of trails that will get you into the backcountry for a great hike or mountain bike ride.

Otter Creek Reservoir State Park

If you want to target smallmouth, consider fishing with soft plastic baits and spinnerbaits off of points and on edges near deep water. Some of the motorized power equipment we offer at Otter Creek includes; wake board boats, jet ski rentals, waverunner rental, and chartered water sport lessons. The primary activities are fishing and boating although it also serves as a regional staging site for extended and day trips into the surrounding National Forest, Utah State Lands and BLM managed lands by horse, foot, and vehicle.

Otter Creek Reservoir State Park

For wildlife watchers, waterfowl, raptors, deer, antelope, and elk abound.

Otter Creek Reservoir Recreation Area, Utah

Dispersed camping or developed camping in the state park. Flashy spoons, lures, spinners and Rapalas are a good choice if you are throwing hardware. A Utah State Park is located at the south end and provides well developed facilities, while the Richfield BLM maintains several semi-primitive sites along the west side of the lake and dispersed use is available on the east side of the reservoir.
