What better forensic science can reveal about the JFK assassination

It was determined by medical, ballistics and neutron activation evidence that the President was struck in the head by a bullet fired from a rifle found on the sixth floor of the Texas School Book Depository.

Paragon House

Just how honest was Oliver Stone, Shaw's Hollywood prosecutor? Nicholas Nalli, senior research scientist at IMSG, Inc.

The JFK Myths : A Scientific Investigation of the Kennedy Assassination

Larry Sturdivan shows how it played out in promoting doubts about one of the most notorious 20th century crimes. Because of time limitations, it was not possible to present all of the evidence in the hearings. What we think about the assassination is dependent on what we think about history, and about the behavior of government officials and bureaucrats.

The JFK Myths by Larry M. Sturdivan

Further corroboration or substantiation was sought by correlating the Zapruder film to the acoustical tape.

JFK Myths: A Scientific Investigation of the Kennedy Assassination by Larry M. Sturdivan

It seems buffis are no more accurate when attacking their enemies than when discussing the assassination. They examined documents from the years 1956 to 1963 to determine if the handwriting of the man who joined the Marines in 1956 was the same as that of the man who had applied fore passport in 1959, tried to revoke his American citizenship in 1959, returned to the United States Page 93 in 1962, journeyed to Mexico in late September 1963, and ordered the rifle which was found on the sixth floor of the Texas School Book Depository on November 22 1963.

Sturdivan repeats the arguments against the acoustical evidence made by a National Research Council NRC panel.

The JFK Myths : A Scientific Investigation of the Kennedy Assassination

Further, an examination of the dispatch tape reflected similar distortions on shots one, two, and three, when the indicated positions of the motorcycle would have placed the windshield between the shooter and the microphone. In addition to acoustic analysis of a , the HSCA also commissioned numerous other scientific studies of assassination-related evidence that corroborate the 's controversial findings.

Paragon House

. The , FBI, CIA, and the Warren Commission were all criticized for not revealing to the Warren Commission information available in 1964, and the was deemed deficient in their protection of the President.
