Cavalry Drill Regulations, United States Army: 1916

Three battalions were in a regiment, each battalion being further subdivided into three companies and a battalion headquarters and headquarters company. This same uniform is worn without the black shakos hat and with the gray or white peaked service cap depending on the season when not parading but still required for formal events.

Silas' Reenacting Links

As in World War I, the brigade was to consist of 3 battalions, 2 light and 1 heavy, and a repair and salvage company.
