In spite, or perhaps precisely because, of its proximity to power, the San-chieh movement ran afoul of the authorities and its teachings and texts were officially proscribed numerous times over a several-hundred-year history. However, this seems to have been an advanced teaching that the Buddha taught to those who had attained a degree of spiritual attainment.

Second, these loans were a way that Buddhist monastics maintained a relationship with society beyond the walls of the monastery. Economic historian Tetsuo Najita states that this type of association was the inspiration for, and in some cases the direct ancestor of, modern-day health, life, and travel insurance companies.
