Schools

Independent charter schools and mayoral academies can seek reimbursements for up to 30% of their expenses. Student Achievement and Resources for Education Studies that have examined the linkage between student achievement and monies expended for education have been controversial and equivocal. Another concept in public school funding is that of adequacy.

Public Education Costs per Student by State

§ 33-5204; Idaho Code Ann.

Charter Schools: What kind of facilities funding is available to charter schools?

Here are specific recommendations that may help the Silver State to meet its challenges. The New York City School District must provide charter schools in need of space and requesting co-location in a public school building a co-location site in a public school building at no cost, or offer space in a privately owned or other publicly owned facility at the expense of the school district and at no cost to the charter school.

Nevada Lacks Transparency with Per

Hispanic students are the fastest growing subgroup of students at 32% of the total school population in the state. In Columbus, Ohio, the school district is contracting out food operations to bring the indebted department back to solvency.

California Schools Could Save \$750 Million by Outsourcing Janitorial, Transportation Services

Thus, while Nevada has the capacity, it does not put forth average effort to fund K-12 education.

California Schools Could Save \$750 Million by Outsourcing Janitorial, Transportation Services

They concluded that a community without a high school loses population faster than all communities losing population during the same time period. What kind of facilities funding is available to charter schools? In addition, a county board must notify charter schools of school buildings or sites that are no longer in use and allow the charter school to use the facility on the county board's terms. This is a major flaw of this initiative that should have been considered already.

Money down the drain

Other funding: Charter schools have the right of first refusal to purchase or lease at or below fair market value a closed or unused portion of a public school facility property in the school district in which the charter school is located if the school district decides to sell or lease the public school facility or property.
