Further, bioethicist Albert Jonsen and colleagues 2010 claim in their work that in order to rigorously apply these principles in clinical situations their applicability must start with the context of a given case. What action is morally allowable, or, what is our duty? The Principle of Nonmaleficence The principle of nonmaleficence requires of us that we not intentionally create a harm or injury to the patient, either through acts of commission or omission. Case 3 One clear example exists in health care where the principle of beneficence is given priority over the principle of respect for patient autonomy.
