This article aims to introduce and evaluate his understanding of theology based on his interpretation of al-asmā' al-ḥusnā. The indexers were able to capture the outlined organization of the tafsīr and distill the themes and concepts into indexable terms. Arguably the greatest feature of this edition is the partial inclusion of Sharḥ Ta'wīl al-Qur'ān by 'Alā' al-Dīn al-Samarqandī d. Saffār, alfabetik bir sıra içerisinde ele aldığı ilâhî isimleri öncelikle lügavî semantik yönden açıklamaktadır.

In addition to the Sharḥ, the editors also elucidate perplexing phrases and difficult words, include brief descriptions of relatively enigmatic people and places, and intuitive indices. Approximately one-third of his theology book called Talkhīṣ al-adilla li-qawā'id al-tawḥīd is composed of his interpretation of al-asmā' al-ḥusnā.
