THE WILD MAMMALS OF LOMBOK ISLAND: Nusa Tenggara, Indonesia: Systematics and Natural History.

STORY BEHIND THE MANDALIKA CIRCUIT OF LOMBOK INDONESIA Mandalika Special Economic Zone as Main Economic Center Lombok, in the province of West Nusa Tenggara, Indonesia is the concern of many investors because of the uniqueness of plants and animals. Such dispersal of seed also increases the possibility that seeds will find suitable sites for germination Jansen 1979 and may reduce seed predation Utzurrum 1984.

Wild Mammals of Lombok Island: Nusa Tenggara, Indonesia: Systematics and Natural History (Records of the Western Australian Museum, 33)

Why did MotoGP leave Indonesia for more than two decades? The circuit covers a paddock area with 40 garages, and provides facilities for 100,000 spectators.

Feel the natural & wild world!

This project is supported by the Indonesian Tourism Development Corporation ITDC , which is one of the largest in Southeast Asia. Utzurrum 1984 suggests that such popular roost sites are potential areas of high seed diversity and provide for future clumps of mixed plant species.
