**hearing**

So we are republishing here, for only the second time since 1935, the full text of the original Report To The President of the Committee on Economic Security as it was transmitted to the President in January 1935. I did not perceive any injury that had taken place at that time; and besides the relief, children were still kept on at that time to assist the weaker children: the extra hours were performed at that time by the extra hands at their leisure, and the weaker children left the employment at the usual time Did the strong children at the same time work the extra hours and the usual hours too? Yes; the dread of being beaten if we could not keep up with our work was a sufficient impulse to keep us to it if we could When you got home at night after this labour, did you feel much fatigued? ## United States House Select Committee on Assassinations

Many have told me that the culture of the Agency is one of prevarication and dissimulation and that you cannot trust it or its people. The General Assembly would also acknowledge the possibility of requesting, at its seventy-fourth session, the Secretary-General to provide the General Assembly with information on all procedural options regarding possible action on the basis of the articles, without prejudice to the question of

whether such possible action is appropriate.
