The Princess Bride (1987)

I caught myself laughing out loud or giggling through out the book! At first I thought she was going to be a mean girl and then she came across as a perky cheerleader type but she turned out to be a lot of fun. Especially if it gave her husband pleasure—and if it could bring them the children they both craved. It would be a pity to damage yours.

Brad Paisley and Kimberly Williams

It has been made into several films. Instead, she tried things like burned chicken feathers and ground pearls! But, overall, I enjoyed this book much more than I expected to. Meredith Thorn didn't appeal to me either when we first met and she still doesn't.

Brad Paisley and Kimberly Williams

Here Naomi steps in as match-maker.

Love Story Quotes (1682 quotes)

And faking a relationship to satisfy Jonas' uptight sister-in-law isn't difficult? Every episode is warm, fun, and a little cheeky. Will be waiting for your next series of books. Meanwhile, Brad has their marriage to thank for music material.

Matt's Love Story (TV Episode 1973)

O384 P75 2003 The Princess Bride is a 1973 by American writer.

Matt's Love Story (TV Episode 1973)

Fate is fickle and always has different ideas for everyone.
