HPSE Interim Report, Study, Nonagricultural Development Potential in the Ogallala Region High Plains Ogallala Aquifer Regional Resources Study November, 20 1980 Arthur D.

## GSA: Franklin D. Roosevelt and Conservation (Vol. 1) (Part II)

The record here is also one to make every citizen of our Nation feel distressed and humiliated, for of the total quantity of coal we have produced since mining for commercial purposes began, amounting to above 5,000,000,000 tons, a least an equal amount and possibly more has been left in

abandoned mines and irretrievably lost.

**GSA: Franklin D. Roosevelt and Conservation (Vol. 1) (Part II)**

Journal of Arboriculture, A Compendium.

**Full text of Energy**

Agriculture Handbook 654 Supersedes Agriculture Handbook 271, Silvics of Forest Trees of the United States, 1965. The multiple use of rangeland: a problem in ecosystem management. Seeding of abandoned croplands in the central Great Plains.
