

Modeling complex phenomena - proceedings of the Third Woodward Conference, San Jose State University, April 12-13, 1991

Springer-Verlag - VDM

Description: -

-

Spanish: Grades 1-2

Juvenile Fiction

Fairy Tales & Folklore - General

Mathematical physics -- Congresses.

Computational complexity -- Congresses.

Chaotic behavior in systems -- Congresses. Modeling complex phenomena - proceedings of the Third Woodward Conference, San Jose State University, April 12-13, 1991

-Modeling complex phenomena - proceedings of the Third Woodward Conference, San Jose State University, April 12-13, 1991

Notes: Includes bibliographical references and index.

This edition was published in 1992

Filesize: 42.95 MB

We model this phenomenon by considering the striations to be a permanent hologram within a medium and compare it with experimental results in a striated strontium barium niobate crystal. Nonlinear dynamical systems analysis for the behavioral sciences using real data.

Modeling Complex Phenomena

Nonlinear Dynamics, Psychology, and Life Sciences, 11, 235-251. By the end of the two-week program, the students will understand the relevant analytic and geometric aspects of several partial differential equations of current interest including the Yang-Mills ASD equations, the Seiberg-Witten equations, and the Hitchin equations and some of their most impactful applications to problems in geometry and topology. Proceedings, 21st Annual Symposium on Engineering Geology and Soils Engineering, Moscow, ID, 1984.
