### The cascade chain

There were many papers that focused on innovation and sustainability in mining themes. Conflict Management and Peace Science.

### Back Matter on JSTOR

There are many theories and much academic debate about the reasons for, and exceptions to, these adverse outcomes. As Head of Social Performance at Qatar Petroleum, Isobel developed strategies and programs to mitigate human rights and stakeholder risks across the company, especially in the supply chain. A 2016 study finds that mining in Africa substantially increases corruption; an individual within 50 kilometres 31 mi of a recently opened mine is 33% more likely to have paid a bribe the past year than a person living within 50 kilometers of mines that will open in the future.

### The cascade chain

The technique, which has been tested in a demonstration plant in Quebec, appears to be significantly cheaper than existing hydrometallurgical techniques that stabilize arsenic into the crystal phase, scorodite.

### The mineral economy: how and costs can falsely signal decreasing scarcity

One study finds that resource wealth in authoritarian states lower the probability of adopting laws. Is this the beginning of the end of mining? Citizens in many parts of the world are becoming more aware and increasingly concerned about the health consequences of pollution, and risks from spills and failures of mine tailings facilities.

### Sustainable economic development: economic and ethical principles

Review of Economics and Statistics. Glencore's production is due to increase later in 2017 as it brings its refurbished Katanga operation back into production.

## **The cascade chain**

Using that variable to compare countries, it reports that resource wealth in the ground correlates with slightly higher economic growth and slightly fewer armed conflicts. Eventually, FLSmidth plans to build a full-scale plate and frame filter with 5 x 3 m plates vertically mounted as per typical machines 2 x 2 m. For a short and to the point introductory explanation of the key ideas, check out the article by Horowitz.
