## Campus Hate Speech and its Use as a Tool Against Opposing Views

Pointing out that Title VII wasn't meant to apply to academia, Shiehl also encouraged readers to consider the role of the courts in eliminating prejudice in this setting and presented a strong argument for the form the codes themselves should ideally take. According to a recent study, reports of campus harassment increased 400 percent between 1985 and 1990. I expect that they will be struck down in the next decade.

## 6 Major U.S. Supreme Court Hate Speech Cases

Between 2016 and 2019, the reported percentage of partisan disinclinations from the left declined from 87 percent to 58 percent, while the percentage of disinclinations from the right increased from 13 percent to 42 percent. Speech codes are not working out so well in the countries whether they have been tried and Twitter is making a complete mess of it. Is it hateful to speak against gay marriage or to be pro-life on a campus where women are predominantly pro-choice? Family members, partners, friends, police officers, prosecutors, judges, social workers, the media, coroners, clergy, and even mental health professionals can cause secondary injury, which makes attributing secondary injury to the person who caused the initial injury questionable.

## Hate speech is protected free speech, even on college campuses

In fact, hate speech often intends to provoke violence. In other words, the jump in speaker disinclinations from 2018 to 2019 is mostly a function of a growing tendency among right-leaning students to disinvite speakers, a tendency in line with the illiberal speech policies of the White House and conservative state legislatures. Wilcher, executive director for AAAED.
