beings. To clear this buffer press JJ Back which takes one back to the start of the current hit.

Hennessey (Kathleen) papers

These entries are arranged in a systematic order. The company was sold to Rudolph Technologies in 2002. This article introduces the concept of instructional management as an organizational framework for carrying out the library's educational mission.

A survey of the use of ethnographic methods in the study of libraries and library users

Accountability for a program lies with those who plan and develop it. Her work will contribute to our understanding of how we manage and experience health issues.

Organizing, describing, analyzing, and retrieving the dissertation literature in special education : a case study using microcomputer technology to develop a personal information retrieval system

In higher education, instructional software packages have been used in the past, but have proved to be impractical. Pieces of data are individual pieces of information. Anybody involved in computing technology knows that the real cost of computing lies not in hardware, but in software, maintenance, and support.
