### 8 Practical Alternatives to Boxwood Shrubs

Thyme forms a solid mat of foliage, with no need for mowing or trimming. Offers may be subject to change without notice.

### The 20 Best Alternatives to Ed Hardy

Sweet Woodruff only grows to a certain height about 2 inches. While fescue is often included in typical lawn mix, opting for an all-fescue lawn won't require chemical fertilizers or weed killers—it's so densely growing, it naturally chokes out weeds.

### The 20 Best Alternatives to John Hardy

Plant this ground cover in sun or part shade and it will grow into a lush mat with white flowers that bloom in late spring.

### Lawn Alternatives

Native to Eastern Australia and New Zealand, this perennial is ideal for areas of light foot traffic, and has moderate heat and drought tolerance, although it prefers moist conditions.

### 10 Lawn Alternatives to Grass Worth Considering in Australia

If you wish to plant it in zone 6b, choose a sheltered location in sun or part shade and mulch around its roots for added protection.

### 10 Lawn Alternatives to Grass Worth Considering in Australia

Check out written by The Plant Hunter, Tim Wood, who is director of product development at Proven Winners ColorChoice Shrubs. The color also tends to last longer than paint on wood, so you can go longer stretches between needing to repaint your home. Gorgeous soft pink, double flowers adorn this shrub in the springtime.

### A Better Alternative to Hardie Board — Board and Batten Siding

Posted: 30 Sep 2011 10:48 Well, I will have radiant barrier and vapor barrier. I love the idea Stoney posted about, but have not heard anything from him, so figured he does not check back that often.
