## A new inclusive economic future for south africa: delivering an accelerated economic recovery strategy

Land reform: progress and plans Government has settled 80 664 claims benefitting 2,1 million beneficiaries at the cost of R40 billion inclusive of financial compensation to beneficiaries.

### Land reform

Parliament concludes briefing by experts on Land Reform and the Constitution The Ad Hoc Committee to Amend Section 25 of the Constitution continued with hearings with experts on the question of land reform, which will assist with drafting the necessary constitutional amendment to make it possible for the state to expropriate land without compensation, in the public interest.

### Business Cycle Indicators show an improved economy in SA

Addressing these problems requires changes to the fabric of the economy. The company has 1 big storage shed and extra 3 small ones, kiosk, an abattoir with the through-put or capacity of 2 000 chickens that can be slaughtered per day. South Africa will only be able to materially improve the lives of all South Africans and deliver on the promise of 1994 if we are able to kick-start, and sustain, high levels of inclusive economic growth South Africa entered a technical recession last year and with the arrival of Covid-19 at the beginning of March 2020, it is clearly evident that the associated economic and social ramifications for South Africa are more severe than previously anticipated.

### Developing an Inclusive South Africa

The bad economic situation has been compounded by the health and economic shocks caused by the pandemic. Addressing the Land Reform matter will not erode property rights, but will instead ensure that the rights of all South Africans, and not just those who currently own land, are strengthened.

### Business Cycle Indicators show an improved economy in SA

It requires that deeds and documents be prepared and lodged in a Deeds Registry by a Conveyancer or Notary Public.

### **Policy Change and Economic Growth : A Case Study of South Africa**

This represents a decrease of 19,1% between the two years. Ebenhaeser land claim settlement ceremony The handing over of these title deeds is a historic occasion, because it includes the first ever settled land claim in the Western Cape to descendants of the Griqua people.

### **South Africa's economic reform ambitions fall short of what's required: a few pointers**

Government has finalised 30 year leases with nearly 900 farmers to enable them to mobilise funding for agricultural development. A significant portion of the funding will go towards export-oriented crops that are highly labour intensive. This was followed by 24,1% in Limpopo 33,0% in 2011 and 18,6% in KwaZulu-Natal 28,2% in 2011.
