The Occult Anatomy of Man by Manly P. Hall

Let us now take a better look at the ideal Serie A clubs. The cosmogony myths of nearly every nation are based upon embryology. Having examined some of the dimensions of the Temple, let us give further exploration to human anatomy.

The Occult Anatomy of man : OccultConspiracy

Proof of this is the fact that injury to certain centers of the brain results in paralysis of various parts of the body. Every religion has its sacred river.

Manly P Hall

We see everything from behind, and it looks brutal.

It is widely accepted in esoteric traditions that the divine enters the body through the crown of the head. If we accept and incorporate into our doctrines the religious symbolism of nearly forty peoples it behooves us to understand at least in part the meaning of myths and allegories which we borrow, lest we be more ignorant than those from whom we secured them.
