Pandemic and Plague Literature

Young adults who reported their occupation as student and did not include any additional information about occupation type are counted under unemployed. Sadly, poverty and economic struggle represent a big business opportunity in this time of Depression-level joblessness. Lack of trust can influence adherence to public health guidance.

Living with someone with opposing COVID

Department of Health and Human Services. Using her as a shield and a sword. Young adults reported limiting social interactions; however, many reported engaging in social activities e.

Opposing Viewpoints

But our recovery must be based on the inherent principles that built this country. Militancy, political action, and demands for rights and recognition within the gay and lesbian community had been building throughout the post-war period.

Opinion: Viewpoints Matter

Abstraction of free text fields was completed to enhance data completeness and accuracy of data collected on patients reporting working outside of the home in the 2 days before symptom onset or positive specimen collection contagious period. Some of the respondents experienced little negative impact or actually saw business increase during the pandemic.

Opposing Viewpoints

Exposure to misinformation and unclear messages has been identified as a driver of behavior during an outbreak 3, 4, underscoring the importance of providing clear and consistent messages about the need for and effectiveness of masks. I would like to encourage community members to be active participants in getting their concerns, ideas and issues, as well as positive feedback, heard at their local council meetings.

AIDS

Dissenters will critique the government for failing to prepare adequately. We sorted our data by responses that indicated they might have to close their business, and then looked at the types of businesses associated with those responses. The physical collection was originally acquired by the History and Special Collections division of the Louise M.
