Like those in our earth, there are cities and villages, streams and rivers, hills and mountains, men and women, all bathed in the bright transparent ether tanmatras or the essence of the ether. January 14th was cloudy, but next night he saw all four stars to the west of the planet, all nearly in the same right line, and increasing in size and brilliancy, according to their distance from Jupiter. The constituents of this cause-body and the world of Brahman are the same pure Ether.

### **A Critical Review of The Empty Tomb: Jesus Beyond the Grave/Part 2**

Eliot joined The London Library in 1918.

### **Words on religion, from beyond the grave**
