## Lucretius (Stanford Encyclopedia of Philosophy)

Épicure, qui méprisait toute élaboration littéraire, recommandait à Pythoclès, son disciple, de « se boucher les oreilles avec de la cire comme l' d' », de fuir à pleines voiles, pour ne pas céder aux « incantations des de la poésie ». Lucretius was both admired and imitated by writers of the early Roman empire, while in the eyes of Latin patristic authors like Lactantius he came to serve as the leading spokesman of the godless Epicurean philosophy.

## De rerum natura

Anti-Atheism in Early Modern England 1580—1720: The Atheist Answered and His Error Confuted. Não se sabe bem como é que os estados da União vão continuar unidos.

## Ravelry: De Rerum Natura Ulysse

Moreover, he adds, worlds come and go, our own included.

## Ravelry: De Rerum Natura Ulysse

What matters is that, however many such explanations we acknowledge, they should be exclusively material explanations sufficient to render unnecessary the postulation of divine intervention. Até agora, o ponto de vista em vigor era apenas o dos resistentes e realmente oprimidos, isto é, uma minoria. Much the same anti-teleological program underlies the ensuing prehistory of civilization 5.

## De Rerum Natura

« Je crache sur la moralité et sur les creuses admirations qu'on lui décerne, quand elle ne produit aucun plaisir », déclare-t-il. Lucretius condenses and largely edits out this doctrine.

## De Rerum Natura

Com espanto ouço esta obra maravilhosa. Em sua honra criei há 12 anos o Rómulo, Centro Ciência Viva da Universidade de Coimbra.

### **Gilliatt**

Na mesma lógica de revisionismo da obra de Cottinelli Telmo, autor do jardim e do Padrão, poder-se-ia pensar em destruir a cidade universitária de Coimbra, também da sua autoria.
