30 Facts About Soda You'll Find Totally Disturbing

Risk not getting the job.

Kristin Shrader

Just one 20-ounce serving of soda can have around 16 tablespoons of sugar in it, which is way higher than what the recommends per day. According to a study of 2,000 pet owners who are nuts about their cats and dogs, more than half of the participants would rather spend time with their furry companion than their significant other.

Kristin Shrader

And we stayed there 15 hours. Furthermore, the ASPCA claims that around 3.

How Taking Risks Can Lead You to a Better Life

Loaded with added sugars, caramel coloring, and other additives, there's a lot more to the syrupy-sweet soft drink than what's listed on their nutrition and ingredients labels. He had an allergy to nickel, and they were quickly replaced with hypoallergenic specs. A 2014 study from discovered that 4-MEI can be found in varying levels in a sampling of 110 soft drink samples and diet colas.

The Book of Risks: Fascinating Facts about the Chances We Take Every Day by Larry Laudan

If we do things right, there will be a time in our lives that we will have to decide whether or not we want to put it all on the line and roll the dice. An expert in statistical analysis, Laudan shows that numerous risk figures are the opposite of what we've been led to believe from media hype.

Kristin Shrader

If you enjoy a can with every meal, that's an additional 420 or 450 calories a day.
