## SpaceX is losing money on its Starlink terminals, but sees lower costs ahead

Musk, who made these comments during a virtual keynote at the Mobile World Congress event in Barcelona on Tuesday, also provided other details about the current status of Starlink. The kit includes a user terminal, a kind of dish, that connects the customer to the satellites and enables broadband access. With operations across five continents and a vast network of interconnected transportation solutions, we open new opportunities that accelerate the growth and pace of global business.

## SpaceX is losing money on its Starlink terminals, but sees lower costs ahead

It is hard to imagine Starlink without the breakthrough in rocket reusability achieved by SpaceX. Improving the customer experience is at the heart of everything we do, so we make purposeful investments in people, facilities and technical innovations that deliver the greatest customer value.

## SpaceX is losing money on its Starlink terminals, but sees lower costs ahead

Image Credits: SpaceX The project has entered into two partnerships with major country telecommunications companies, though Musk declined to specify their names. He said the company is hoping to make the first orbital launch attempt with Starship in the next few months.
