Of course, to be rational, we must accept its real existence. The cosmos has an immeasurably huge amount of usable energy. What do we understand when we see the material universe? Since useful energy is organized energy, an increase in entropy means a decrease in useful energy Buffaloe 77.

Is There A God?

Further, either life has always existed on earth, or it had a beginning.

Everything that goes into the chemical process must be accounted for in the product. Eventually, one is forced back to the uncaused First Cause. The purpose of this study is to demonstrate that the existence and predictable operation of the physical universe, comets included, will lead an honest, intelligent inquirer to believe in the existence of God.
