A Knight's Daily Life In The Middle Ages

Another Irish family were the , who were created knights in 1553 under the policy of first established by. This practice is similar to the conferral of the dignity of in the. They used shields to block strikes and stop the missile attacks.

Medieval Helms

Presumably, this helped center them so they could start their day on the right foot.

Medieval Helms

Quite short before the 11th century, oval shield was lengthened to cover the left knee of the mounted warrior called the. Knights helmets existed in different types, reflecting transformations throughout the times.

Medieval Helms

Other such as the facial armoring chanfron, were made for horses. While the style may have varied from region to region, including such designs as the sallet, the armet, the great helmet, the bascinet, and the barbute, the function was always the same. In the later Roman Empire, the word for horse, equus, was replaced in common parlance by the caballus, sometimes thought to derive from Gaulish caballos.
