

Guide - version 3 for Ms-Dos : Guide user manual.

Manchester Computing Centre - Quality Measures

The screenshot shows a Command Prompt window titled "Command Prompt" running on ReactOS. The window displays the syntax for the REN command: "REN [/E] [/R] [/S] [/I] old_name ... new_name". It also lists several options: /E (No error messages), /R (Nothing, Not implemented yet!), /I (Quiet), /S (Rename subdirectories), and /T (Display total number of renamed files). A note at the bottom states: "Note that you cannot specify a new drive or path for your destination, use the MOVE command for that purpose." The current directory is shown as "C:\Documents and Settings\Administrator\...".
