With updated examples, new sections on ethics, and much more, this new edition remains a must-read for any graduate student or experienced researcher interested in the art of qualitative interviewing. Its complex yet readable treatment is an essential part of the toolbox for both novice and experienced qualitative interviewers. Its complex yet readable treatment is an essential part of the toolbox for both novice and experienced qualitative interviewers.

In other words, the book focuses on interviewing as a method to research the experience of individuals. Appropriate for individual and classroom use, the new edition has been completely updated and expanded to include important new material on ethical issues, long-distance interviewing, computer-assisted data analysis, and more. While proposing a phenomenological approach to in-depth interviewing, the author also includes principles and methods that can be adapted to a range of interviewing approaches.

**Interviewing as Qualitative Research: A Guide for Researchers in Education and the Social Sciences: Seidman, Irving:

The cover may have some limited signs of wear but the pages are clean, intact and the spine remains undamaged. Equally popular for individual and classroom use, the new Third Edition of Interviewing as Qualitative Research features: an introduction to the Institutional Review Board IRB process in its historical context, including an expanded discussion of informed consent and its complexities; a special attention to the rights of participants in interview research as those rights interact with ethical issues; and updated references and suggestions for additional reading for a deeper consideration of methodological, ethical, and philosophical issues, including relevant Internet resources.

**Interviewing as Qualitative Research: A Guide for Researchers in Education ...**

The text is in layman's terms and easy to read---this is very important for doctoral students who are under a lot stress with other responsibilities e.

**0807730742**

Using concrete examples of interviewing techniques to illustrate the issues under discussion, this classic text helps readers to understand the complexities of interviewing and its connections to broader issues of qualitative research.
