Thelonious Monk

The music was recorded in Paris in 1958. Rouse is in good form along with Wilen , and the music stands as another good example of Monk's skills as a composer and improvisor.

Les liaisons dangereuses (2005 edition)

Mambo dans la voiture 8. No Problem 1st Version 2. If you have a lot of other Monk, maybe you don't need this.

Les liaisons dangereuses. (1961 edition)

Beautifully recorded, and great sound quality on this CD issue. General note: Program notes by Alan Tercinet, Robin D.

Les liaisons dangereuses 1960 : Jones, Sam, 1924

Suspense, Tom et Nasol 3. The two CDs went into my 5-CD changer two weeks ago, and they're still there! Plus there's a mini catalogue with all the information and many photo images about the film and recording sessions inside a cool cover image of this ground-breaking jazz pianist as ever behatted for a gig! The album is one of the only occasions in the pianist's discography where he employed two tenor players: the other was Thelonious Monk at the Blackhawk, with Harold Land alongside Rouse. La Divorcee de Leo Fall 2.

Les liaisons dangereuses (1796 edition)

Not a huge fan of Barney Wilen's work, but that's a personal opinion and shouldn't deter anyone from picking up this set if they are Monk fans. Overall, Les Liaisons Dangereuses is a nice set.

Les liaisons dangereuses. (1961 édition)

Suspense, Tom et Nasol 3.
