King Coal by Upton Sinclair

At Pine Creek—Hal found the very naming of the place made his heart stand still—at Pine Creek he had boarded with his boss, but the roof of the building leaked, and everything he owned was ruined; the boss would do nothing—yet when the boarder moved, he lost his job. For fifteen days, fifty cents! Perhaps no other industry depended on West Virginia coal more than the Northeast steel factories. He told horrible stories of that sort of thing.

Old King Coal—A Long, Colorful Story

Let's see how you cope with a little heat! Looking out for the best for him or her. There was no one to be telegraphing Joe Smith.

King Coal Highway

So it happened that these mines were killing several times as many men as other mines throughout the country.

King Coal Highway

So they became too good for their lot in life; and then a wandering agitator would get in, and all of a sudden there would be hell.

KING COAL

Jerry had just had a sleep and a wash, and had put on a pair of new blue overalls, so that he presented a cheering aspect in the sunlight. Could he think out a definite conclusion as to his rights and wrongs, and back his conclusion with effective action, when his mental faculties were paralysed by such weariness of body? Yes, said the stranger, but matters seemed to be especially bad in the coal-camps. They wore for the most part a single ragged smock, and their bare buttocks were shamelessly upturned to the heavens.

King Coal

She was the first beautiful sight Hal had seen since he had come up the canyon, and it was only natural that he should be interested. He struggled

with an impulse to clasp her again.

KING COAL, Bulk Carrier

It was evident that he did not care to go on, that he did not want union speeches made in his home. Sinclair really does write with great compassion and love and support for the working class. They sat in semi-darkness, and Stone dropped his voice as he began.

King II coal mine could be extended by 20 years

Through the windows, Schoening can see the 13 bins under the yard's elevated rail spur, only a few barely stocked with coal. King Coal was free and worth every penny. He entered into fluent conversation with Hal, explaining how much interested he was in the check-weighman plan; he wanted to know just what they were going to do, what chance of success they thought they had, who had started the movement and who was in it.
