## Nathan Söderblom

Their comparative advantage lies in using conflict resolution tools that do not depend directly on power politics. Wars cannot happen within or between nations with market-integrated economies because war requires the harming of others, and in these kinds of economies, everyone is always economically better off when others in the market are also better off, not worse off.

## A peaceful Europe

But the dream was torn from the heart so suddenly. The joint invitation described the purpose of the congress as a declaration of Christian unity and an expression, before the world, of the belief that the values of Christendom transcend those of individual nations without in any way detracting from their importance. The pursuit of the objects of our desire and attachment involves the use of aggression and competitiveness as supposedly efficacious instruments.

## A peaceful Europe

Similar collaborative mechanisms are emerging from the Internet around projects, including , and the evolution of other. Not those between thirty-five and fifty — they have no such desire. If, for example, the leader of the United States of America and the leader of the Union of Soviet Socialist Republics suddenly met each other in the middle of a desolate island, I am sure they would respond to each other spontaneously as fellow human beings.

## Cooperation

One is for free private enterprise; the other is for centralized governmental control of property and of men.

## United Nations

Controlling for levels of economic development and democracy in a country, for whether or not a minority group has an established rural base, and for levels of religious grievance, language difference has no overall effect on levels of violence but mitigates violence when religious grievances are strong. The development of a kind heart a feeling of closeness for all human beings does not involve the religiosity we normally associate with

conventional religious practice. As children walk to and from school, community organizations of all descriptions open their doors, with staff standing outside to ensure safe passage.

### **The Pilgrim**

At the heart of many faiths, practices, and cultures, advancing peaceful co-existence is essential to ensuring productive, meaningful lives and sustainable societies. Various religious and secular organizations have the stated aim of achieving world peace through addressing , technology, , engineering, medicine, or used as an end to all forms of fighting. Over the years it has also sponsored many programs and events to foster peace and has worked with other communities worldwide.
