Intellectual Property

Contracts and Torts Every entrepreneur enters into contracts, usually on a regular basis, and thus should have an understanding of basic contract concepts. However, if a person creates a fancy water spigot, the design is more likely to be copyrightable. And, we are empowering and creating our next generation of innovators by: Joining the STEM Careers Coalition: A coalition of industry partners coming together with Discovery Education to empower educators to teach STEM effectively in the classroom, foster equity and access to quality education, and build the next generation of solution-seekers.

How Intellectual Property can Grow and Protect Your Business

It includes youth outreach, partnerships with academic institutions, and recruitment and retention of top female technical talent. Kristen also sits on the board for the Encore Performing Arts Center which oversees the Flagstar Strand Theater in Pontiac and is the President of the Women Lawyers Association of Michigan Foundation. A company can do so by issuing NDAs non-disclosure agreements to its employees or establishing levels of security clearance.

Intellectual Property Rights around the Globe

Ackerman, Biotechnology, Indigenous peoples, and Intellectual property Rights, Congressional Research Service, Library of Congress, Washington DC, 1993; Andrew Gray, Between the Spice of Life and the Melting Pot: Biodiversity Conservation and its Impact on Indigenous Peoples, IWGIA Document 70, Copenhagen, August 1991; Clark Peteru, 'Indigenous peoples' knowledge and intellectual property rights', consultation working paper for consultations in Suva, Fiji, April 1995, Pacific Concerns Resource Centre Inc.

If We Don't Develop Best Practices Ourselves, the Government Will

For example, we are inspiring the next generation of innovators through STEM education—from funding scholarships, to performing experiments at schools, to sponsoring robotics competitions, and offering free virtual science lessons and experiments for children studying at home during the pandemic. New York: Random House, 2008. The evidence shows that strong intellectual property rights protections are vitally important for both developed and developing countries alike.
