In his article, 57 39 Reflections on the Exhibition, the well-connected art collector John Ferguson noted the London organizers pretentiousness regarding their art historical knowledge. Additional Discussion on Ceramics Taolu yulun

Filesize: 44.38 MB

Chapter One, accompanied by maps and images, deals with the history of Jingdezhen and the imperial kiln.

## OBSAH

A few books on the subject of drawing were also published in translation, with the illustrations faithfully copied, for example, The Engineers' and Machinists' Drawing Book by V. Beijing, Shehui kexue wenxian chubanshe 2002, 3, 7, 277 s. For the majority of the population in Jizhou, the patterns of agricultural activity continued to provide the structures and rhythms of daily life.

## Full text of Century in

In presenting a chronological overview of the porcelain production in Jingdezhen, this study draws on the work of art historians, curators and porcelain specialists, but offers a history of the town rather than of its products. How did it come about, and how is it significant for understanding the emergence of blue and white ceramics? The product that emerged from these changes, the matte, egg-white porcelains that have been referred to as shufu wares after the characters imprinted upon the wares, or as luanci after the colour of the glaze, were clearly popular within China and beyond, as they have been found in excavations throughout the trading world of the Chinese. The technology was not exclusive to Cizhou, but

during this time it was hardly used in the sites of ceramic production in the south.

President; G-20 summit deals with global issues of financial regulation, fiscal stimulus and monetary policy. In the Chinese language, it was the first attempt to produce a comprehensive book on porcelain production and aesthetics focused on Jingdezhen that was eventually published in a non-official context. His views revealed an epistemological framework embedded in modern notions of time and focused on the present and future possibilities of his society and porcelain.
