## Travel Info for the Redwood Forests of California, Eureka and Humboldt County

The leaves are quite slender and grouped in three to 13 leaflets.

## Giant Redwood Trees of California Painting by Albert Bierstadt Reproduction

California is home to some of the largest and most famous trees in the world, the Giant Sequoias of the Sierra Nevada. Crape Myrtles are undoubtedly one of the best flowering trees Southern California has to offer. The other common names are swelled butt ash and red ash.

## Steven Harper

It is also found on the western and eastern slopes of the southern California mountains. The tree is cold hardy, drought tolerant, and adaptable to a range of soil types.

## Giant Redwood Trees of California Painting by Albert Bierstadt Reproduction

This abundantly illustrated, beautifully produced, easy-to-use volume is a one-stop guide to California's trees.
