Again, no electromagnetic energies or interaction need pass between the electron myself and the other electrons in order to explain the quantum potential that exists between us. Keith floyd, 'Of Time and the Mind1 Evidently when Egyptian travelers first encountered the Euphrates they also

encountered an unusual difficulty.

### **Mysticism and the New Physics**

As the quote by Floyd above suggests, we may expect the niddle of consciousness to be a unique problem for several reasons. The knowledge contained therein is reflective of the ever changing world in which we live. Heisenberg stated that the observer alters the ob served by the mere act of observation.
