### Handbook of forensic mental health.

The two clinically tested treatment manuals have been specifically designed for use by music therapists and other clinicians working in prisons and secure hospital settings. It identified the deficient arrangements for inspection and the inadequate powers of the inspecting Commissioners as the main reasons for the persistence of the problem. Why wait until sentencing to determine if a person is mentally ill when it can be done at the point of arrest? Two introductory chapters cover general issues in violence risk assessment, while the remainder of the book offers a comprehensive discussion of specific risk assessment measures.
