UK Labour suffers historic defeat in Hartlepool

Between 1991 and 2019, partisan control of the New Jersey General Assembly shifted from a Republican to a Democratic majority. Instead, he believes, the way to think about the current economic drop-off, at least in the first two phases, is more like what happens to a thriving economy during and after a natural disaster: a quick and steep decline in economic activity followed by a quick and steep rebound. This story originally appeared on.

In , Democrats flipped the chamber. Steel workers secured a cumulative 14% wage increase over a four-year period.

Wall Street on track for best week since April

Frankly, no matter what the recovery looks like, I expect President Trump to either take credit for things he had nothing to do with or to avoid blame for things he helped cause.

Trump steel tariffs bring job losses to swing state Michigan

The primary was on June 8, 2021, and the general election is on November 2. On this page, we assess the likelihood of each existing state government trifecta breaking as a result of the 2021 elections. In the elections, Democrats picked up 15 seats and nearly forced a 50-50 split in the chamber.
