## Scholastic Achievement Levels and Conformity of Junior High School Students in the Asch Experiment

Conforming to the opinions of others can help us enhance and protect ourselves by providing us with important and accurate information and can help us better relate to others. Given the human tendency toward group assimilation, it is not surprising that individuals who are different from the majority have been shown to risk rejection by group members. Gender roles have set values that the woman is supposed to take care of the children alone with the only work of the man being to provide for the family.

In all society, conformity and obedience are commonly encountered.

### An Outline and Evaluation of Conformity: [Essay Example], 1613 words GradesFixer

The observed gender differences in conformity have social explanations—namely that women are socialized to be more caring about the desires of others—but there are also evolutionary explanations.

### What is Conformity?

The social self: On being the same and different at the same time. In a single group-testing session, students in grades 5-7 172 girls, 180 boys provided background information, and completed sociometric measures of peer acceptance as well as self-report measures of belonging and peer conformity.
