Drought predicted to break soon

This is the mystery and My plan for the last days.

When will Australia's drought break?

This Privacy Statement relates only to the collection of personal information in relation to the Pursuit Website. A drought is a period of drier-than-normal conditions that results in water-related problems.

Extreme drought conditions to continue in the Borderland

Heb 12:1-2 NKJV Therefore we also, since we are surrounded by so great a cloud of witnesses, let us lay aside every weight, and the sin which so easily ensnares us, and let us run with endurance the race that is set before us, 2 looking unto Jesus, the author and finisher of our faith, who for the joy that was set before Him endured the cross, despising the shame, and has sat down at the right hand of the throne of God.

The Drought

There is another half to come dear ones. For the southern Basin, the highest percentage decreases in capacity of the major storages in January were for Lake Victoria by 20%, Blowering by 14%, Burrinjuck by 13%, Hume by 12.

Unspeakable Joy When Drought is Broken

Remaining areas in Western Australia have and areas in south-east Queensland and have generally received less than 60% of their average for the period.
